OPTOMAP RETINAL EXAM

In our continued efforts to bring the most advanced technology to our patients, we are proud to announce the inclusion of the Optomap Retinal Exam as an integral part of your exam today.

As a part of our standard of care, every patient receives digital imaging of their internal eye health. This is \$34 that is not covered by vision plans or medical insurance. One of our technicians will be happy to answer any questions you may have regarding the Optomap Retinal Exam.

We are concerned about retinal problems including macular degeneration, glaucoma, retina holes or detachments, and systemic diseases such as diabetes, stroke, and high blood pressure. These conditions can lead to serious health problems, including loss of vision, and often develop without warning or symptoms.

The Optomap Retinal Exam provides:

- ∅ An eye wellness scan
- ∅ An in-depth view of the retinal layers (where diseases can start)
- ∅ The ability for you to view your Optomap Retinal Image at the time of your exam
- ∅ An annual, permanent record for your medical file, which gives comparisons for tracking and diagnosing potential eye and systemic diseases

9250 University Ave, Suite 110
West Des Moines, IA 50266
